## PROFILE SUMMARY

---

Senior Frontend / Product Engineer with 5+ years of experience designing and building scalable enterprise web applications across healthcare, e-commerce, Salesforce, and banking domains for UK and US clients. Expertise in Angular, TypeScript, JavaScript, SCSS, Figma, UX/UI design, and modern frontend architecture, with strong experience in building products from scratch, translating business requirements into intuitive user experiences, and delivering responsive, user-centric solutions. Skilled in frontend architecture, reusable component development, design systems, REST API integration, unit testing, performance optimization, and cross-functional collaboration in Agile environments.

## WORK EXPERIENCE

---

- **HealthFirst Technologies Pvt Ltd** (Hyderabad)

*Senior Product Engineer*

Sep 2024–Present

- Leading frontend development for enterprise healthcare applications serving UK-based clients, driving architecture decisions, feature delivery, and end-to-end product execution.
- Built healthcare applications from scratch using Angular 20, TypeScript, SCSS, and modern frontend architecture, establishing scalable component systems and configurable application foundations.
- Collaborate directly with clients for requirement gathering, product discussions, weekly demos, and translating business needs into scalable technical and UX solutions.
- Performed business analysis, workflow planning, task coordination, and cross-functional collaboration between stakeholders, backend teams, and frontend engineering.
- Designed and implemented highly responsive, user-centric interfaces using Figma, modern UX principles, custom animations, dynamic forms, calendars, filters, and reusable design systems to improve user engagement and usability.
- Created custom reusable UI frameworks and components, reducing dependency on third-party libraries while improving maintainability, consistency, and development efficiency.
- Defined API contracts, TypeScript interfaces, and scalable integration models with backend teams to streamline frontend-backend communication and accelerate feature delivery.
- Delivered Angular major version upgrades, frontend modernization initiatives, and unit testing implementation to improve application performance, maintainability, and stability.

- **Girnar Newtel Solutions Pvt Ltd** (Hyderabad)

*Software Engineer*

June 2022–Aug 2024

- Developed enterprise e-commerce and Salesforce-integrated applications for US-based clients using Angular, TypeScript, RxJS, NgRx, JavaScript, HTML5, and SCSS.
- Built reusable UI components, responsive customer-facing interfaces, and optimized user journeys to deliver consistent and intuitive user experiences.
- Collaborated with product owners, designers, and backend teams to implement business-critical features and frontend enhancements aligned with customer requirements.
- Delivered Angular upgrades, REST API integrations, performance optimizations, and frontend modernization initiatives to improve scalability and maintainability.

- Conducted unit testing using Jasmine and Karma while contributing to Agile delivery, code reviews, debugging, and continuous product improvements.
- **Achala IT Solutions** (Hyderabad)  
Associate Software Engineer May 2021–May 2022
  - Developed banking and financial applications for US-based clients using Angular, TypeScript, JavaScript, HTML, CSS, and RxJS.
  - Implemented business-critical features, production fixes, and frontend enhancements ensuring secure, reliable, and stable application functionality.
  - Integrated REST APIs and collaborated with backend teams to support business workflows and continuous application improvements.
  - Participated in Agile development, debugging, issue resolution, sprint planning, production support, and feature delivery activities.
- **Rugas Technologies Pvt Ltd** (Bangalore)  
Full Stack Developer Intern 2020
  - Contributed to e-commerce application development using Vue.js for frontend implementation and Feathers.js for backend services.

## TECHNICAL SKILLS

---

- **Frontend:** Angular (14–20), TypeScript, JavaScript (ES6+), RxJS, NgRx, HTML5, CSS, SCSS, Angular Material, Responsive Web Design, Reactive Forms, Lazy Loading, Route Guards
- **UX/UI & Design:** Figma, Wireframing, Prototyping, Design Systems, User-Centered Design, UX/UI Design
- **Testing:** Jasmine, Karma, Unit Testing, Test-Driven Development (TDD)
- **Backend Integration:** REST APIs, API Integration, API Contract Design, TypeScript Interfaces, JSON Data Handling
- **Tools & Platforms:** Git, CI/CD, AWS, VS Code
- **Practices:** Agile (Scrum/Kanban), Performance Optimization, Reusable Component Architecture, Cross-Functional Collaboration, Debugging, Code Reviews
- **AI Productivity Tools:** ChatGPT, Cursor AI, Claude AI, AI-assisted Prototyping, UI Ideation, and Development Workflows
